Re: Morgan Engineering & Surveying

To Whom it May Concern:

It is with great pleasure that I recommend Morgan Engineering & Surveying. I have worked with Morgan on hundreds of real estate transactions and they have become a trusted partner and an integral part of our real estate team.

The surveys are provided promptly and accurately. They are always willing to accommodate rush orders and other special requests. The professionals at Morgan are open to questions and are willing to consult with us on any matter. Frank and Lauren have fantastic follow-through and are very 'hands on' with all of our transactions.

The entire team at Morgan is highly competent and adheres to the highest professional and ethical standards. I am happy to give them my wholehearted endorsement.

I look forward to continuing our professional relationship with Morgan Engineering & Surveying for many years to come.

Sincerely,

James M. Miner
